SKILL WEEK – 1

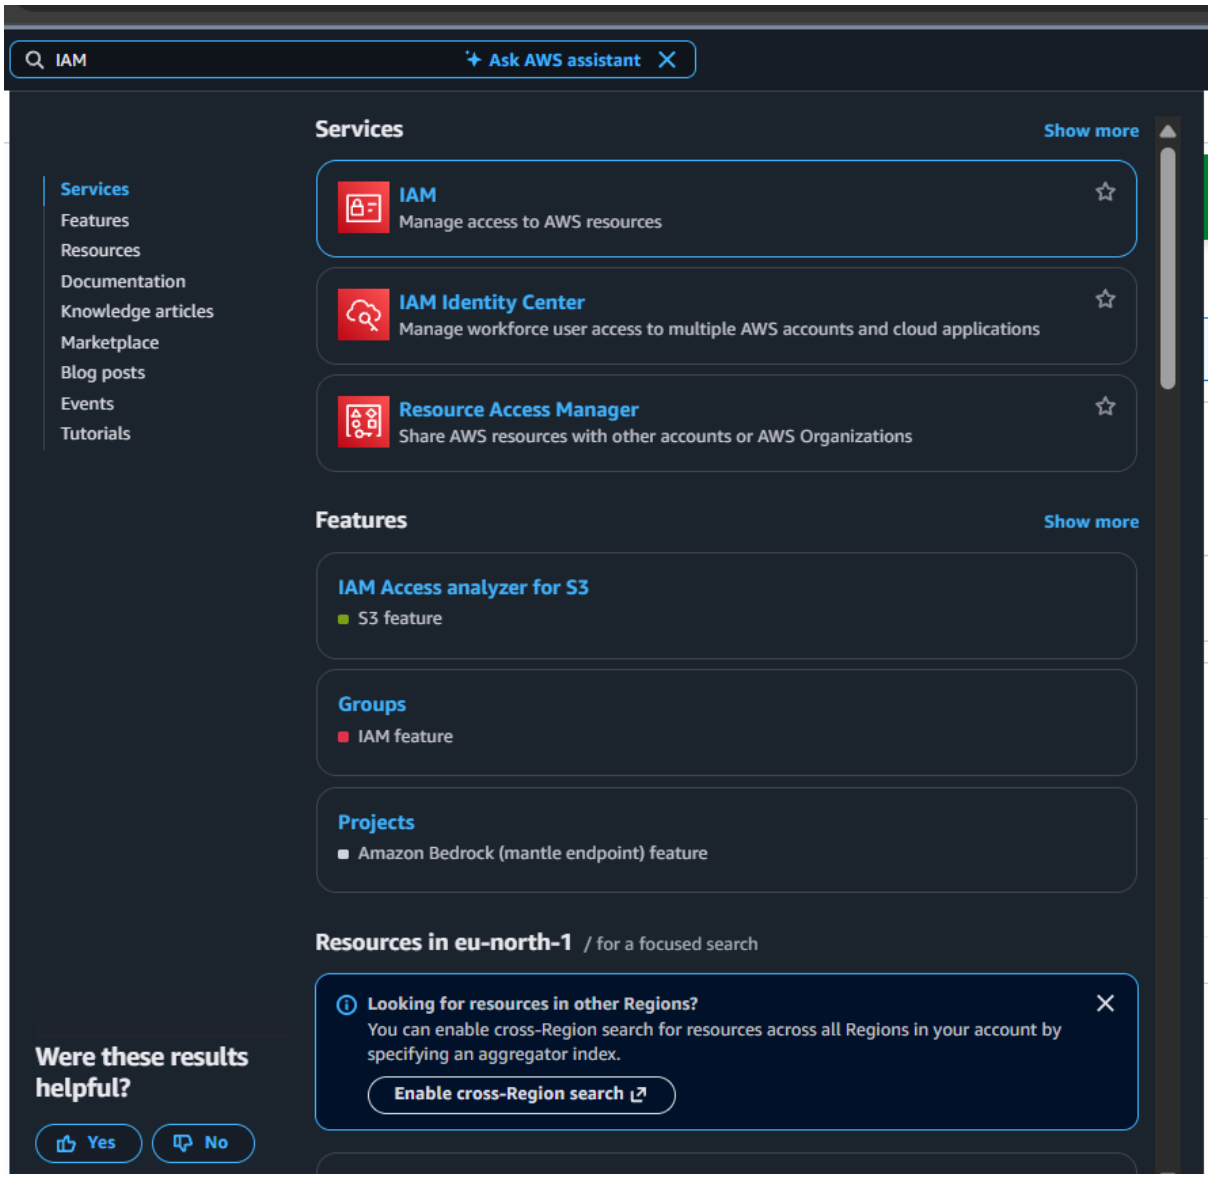

Name: Salihundam Svara Haasini
Roll Number: 2520090170
Course: Cloud Infrastructure (CDIS)
Experiment: IAM User Creation and AWS Billing Alert Configuration

Aim

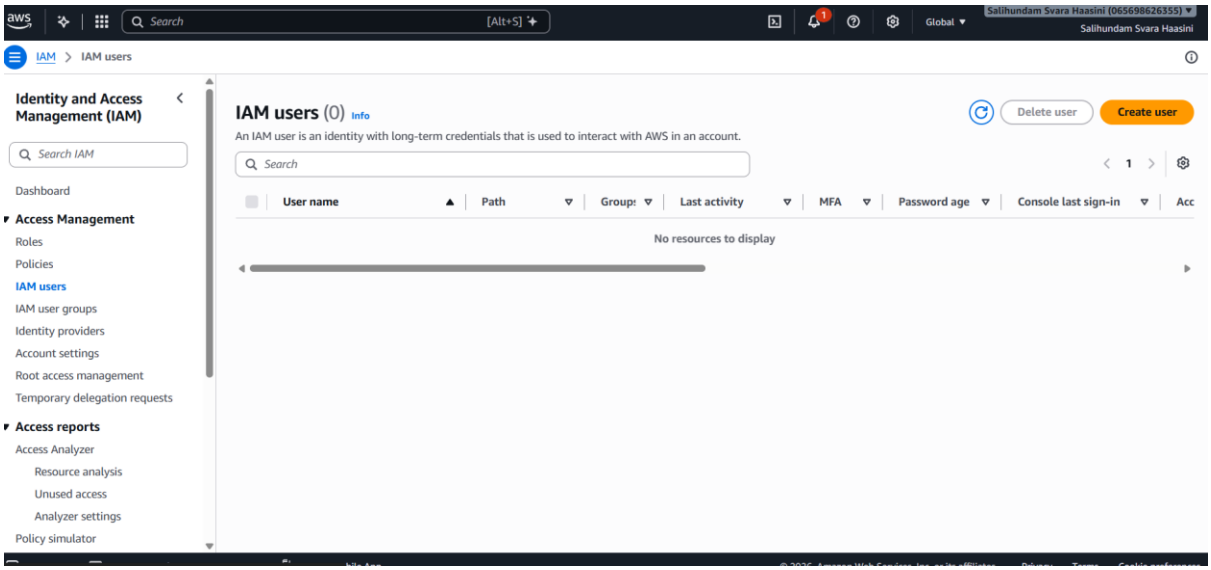

Create an IAM user with programmatic access only, download the access key and secret key, and document the steps with screenshots. Then set up a billing alert for the account so that an email is received when the Free Tier limit is about to be crossed.

Task 1: Creating an IAM User

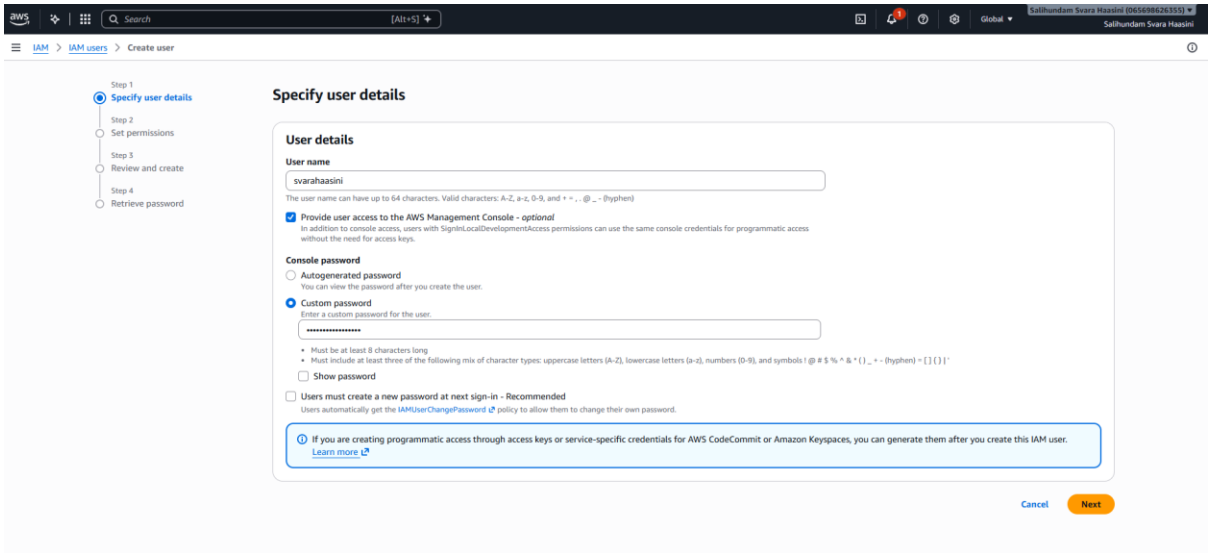

Step 1: Open the AWS Management Console and search for IAM.

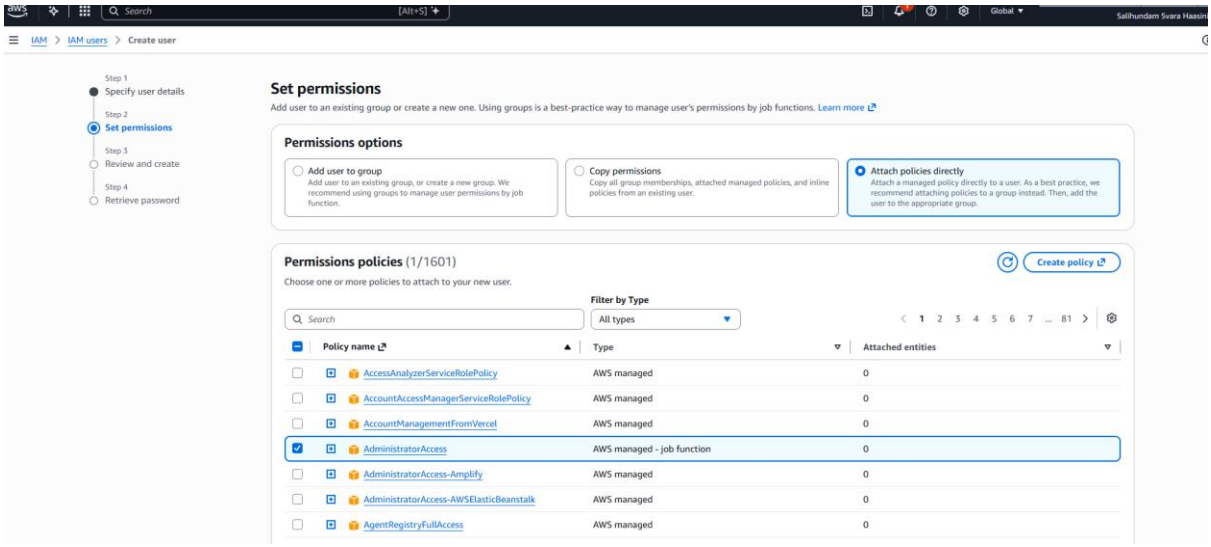

Step 2: Navigate to IAM → Users → Create User.

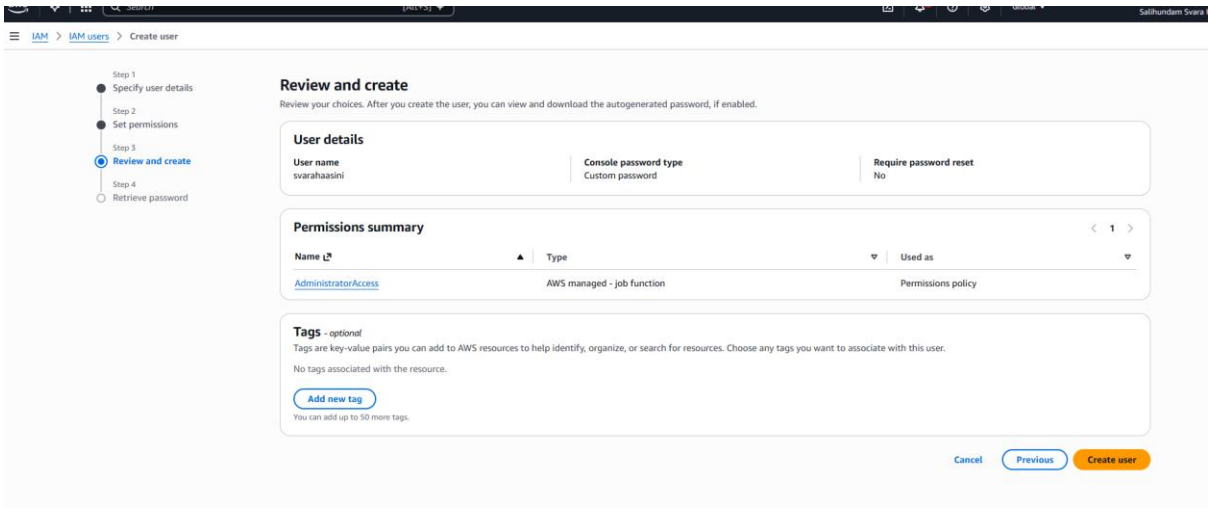

Step 3: Enter the IAM username and select the access options.

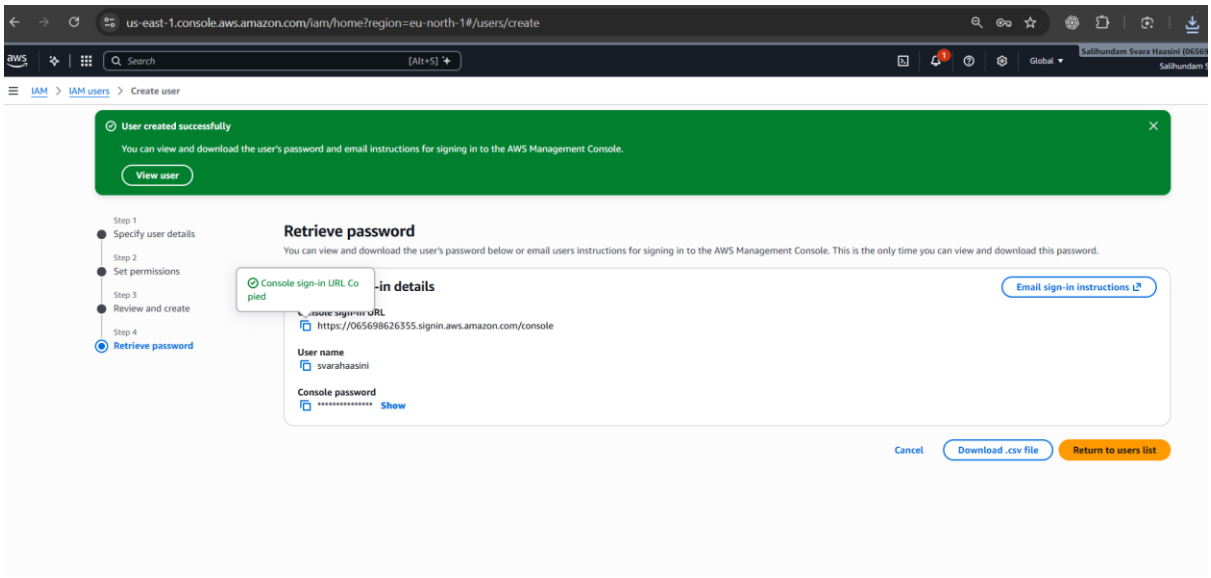

Step 4: Attach the required IAM permission policy.

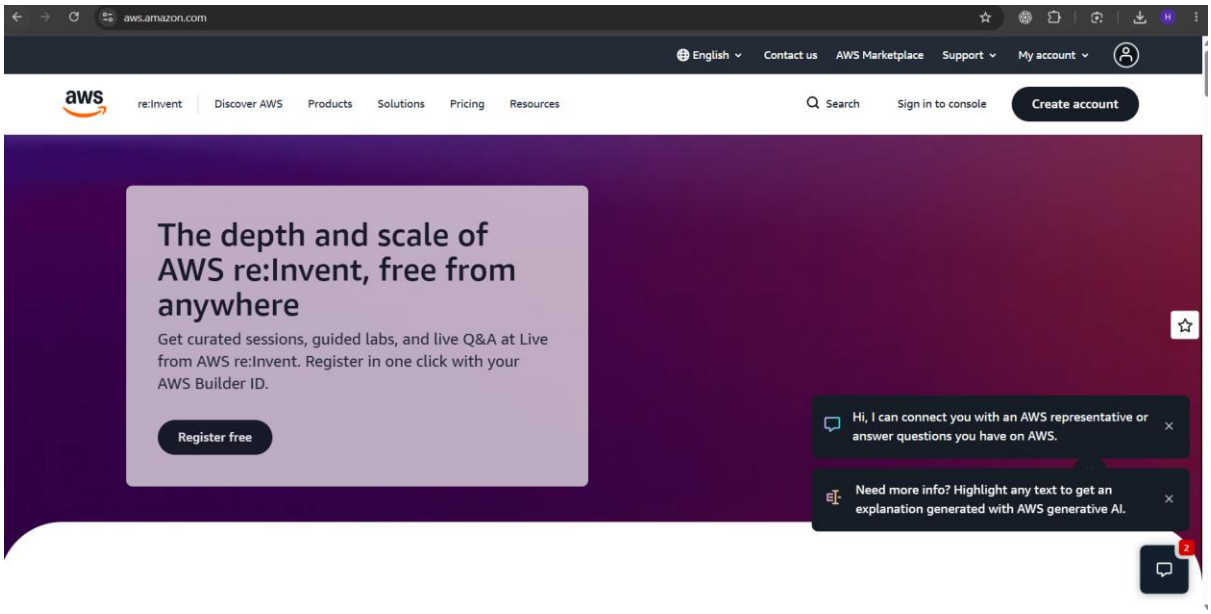

Step 5: Review the user details and create the IAM user.

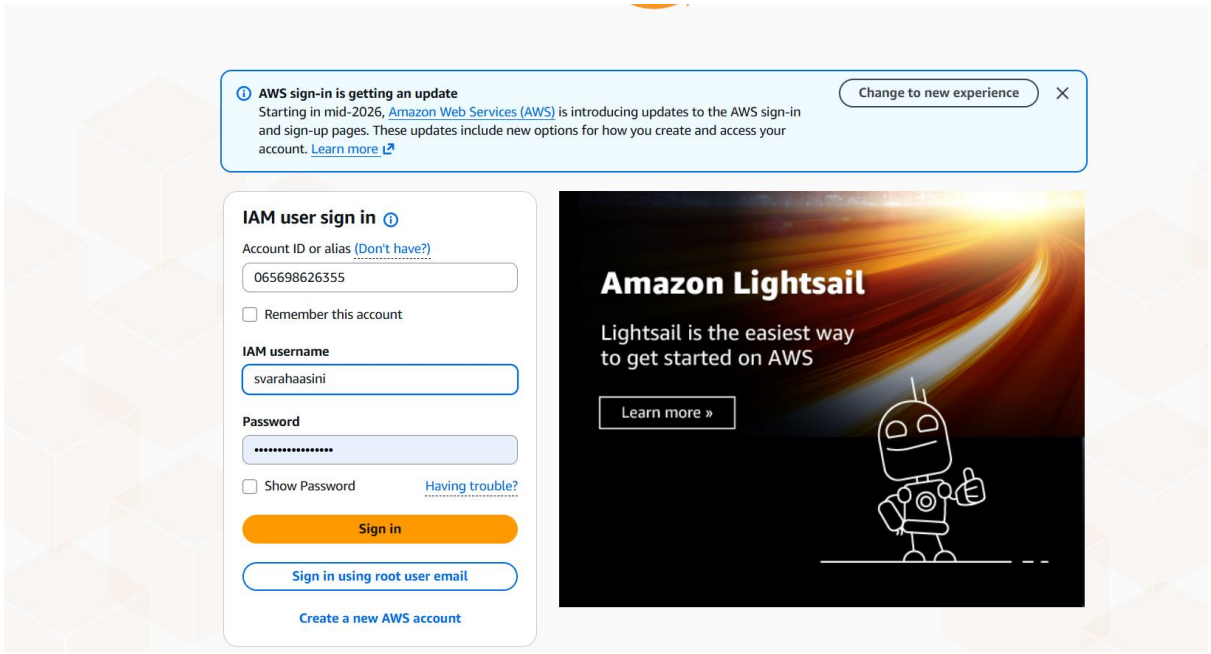

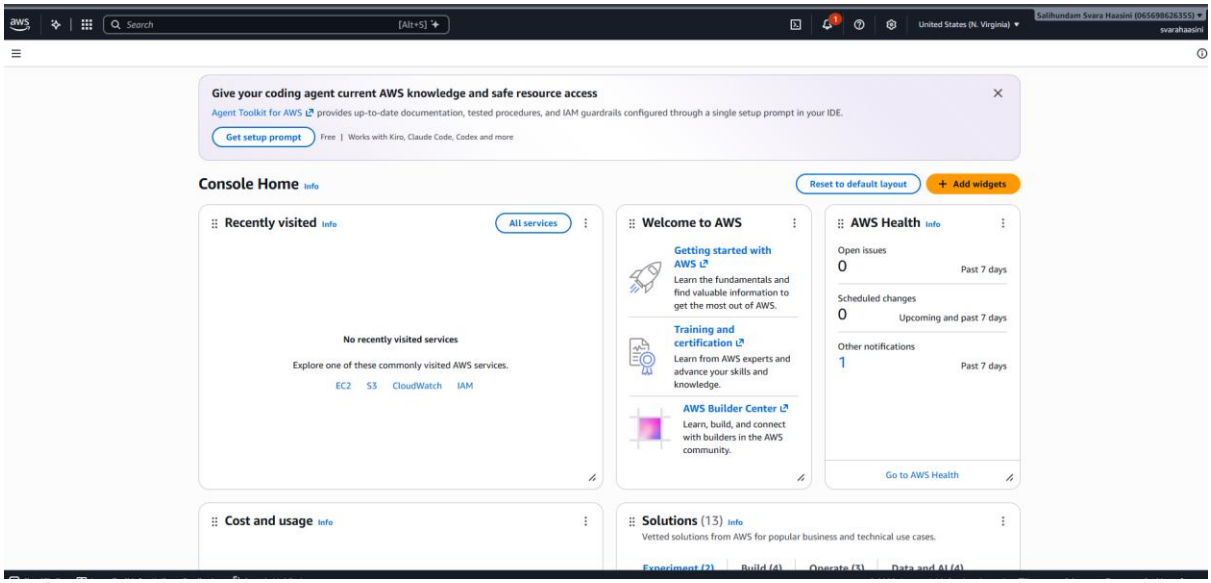

Step 6: View and download the IAM user login credentials.

Step 7: Sign in using the IAM user credentials.

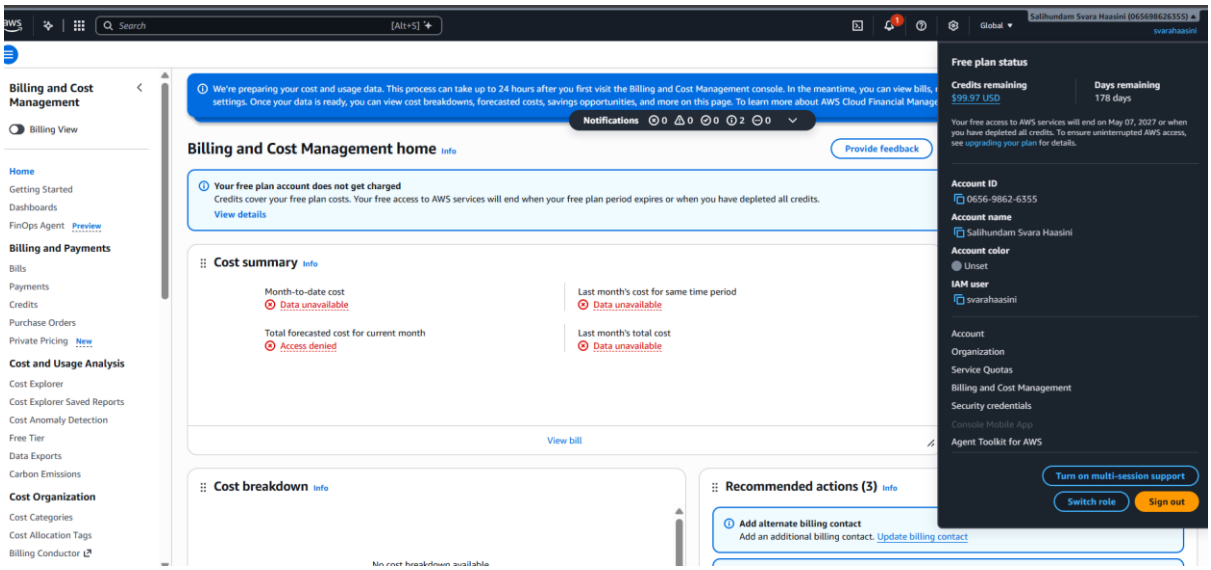

AWS sign-in is getting an update
Starting in mid-2026, Amazon Web Services (AWS) is introducing updates to the AWS sign-in and sign-up pages. These updates include new options for how you create and access your account. Learn more

Task 2: Creating an AWS Billing Alert

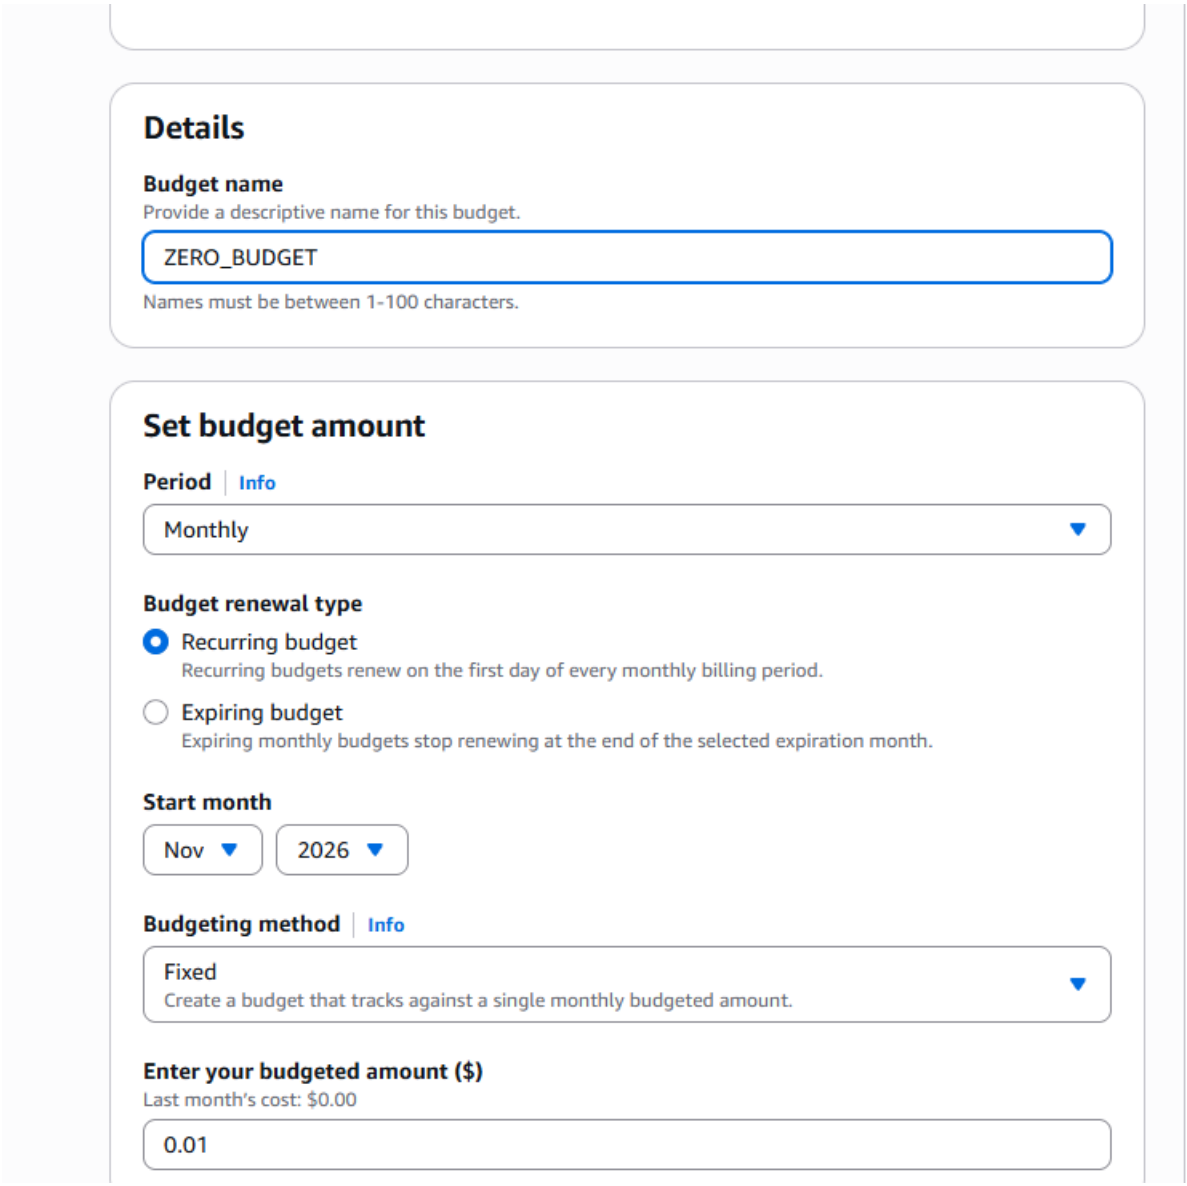

Step 8: Open Billing and Cost Management from the AWS Console.

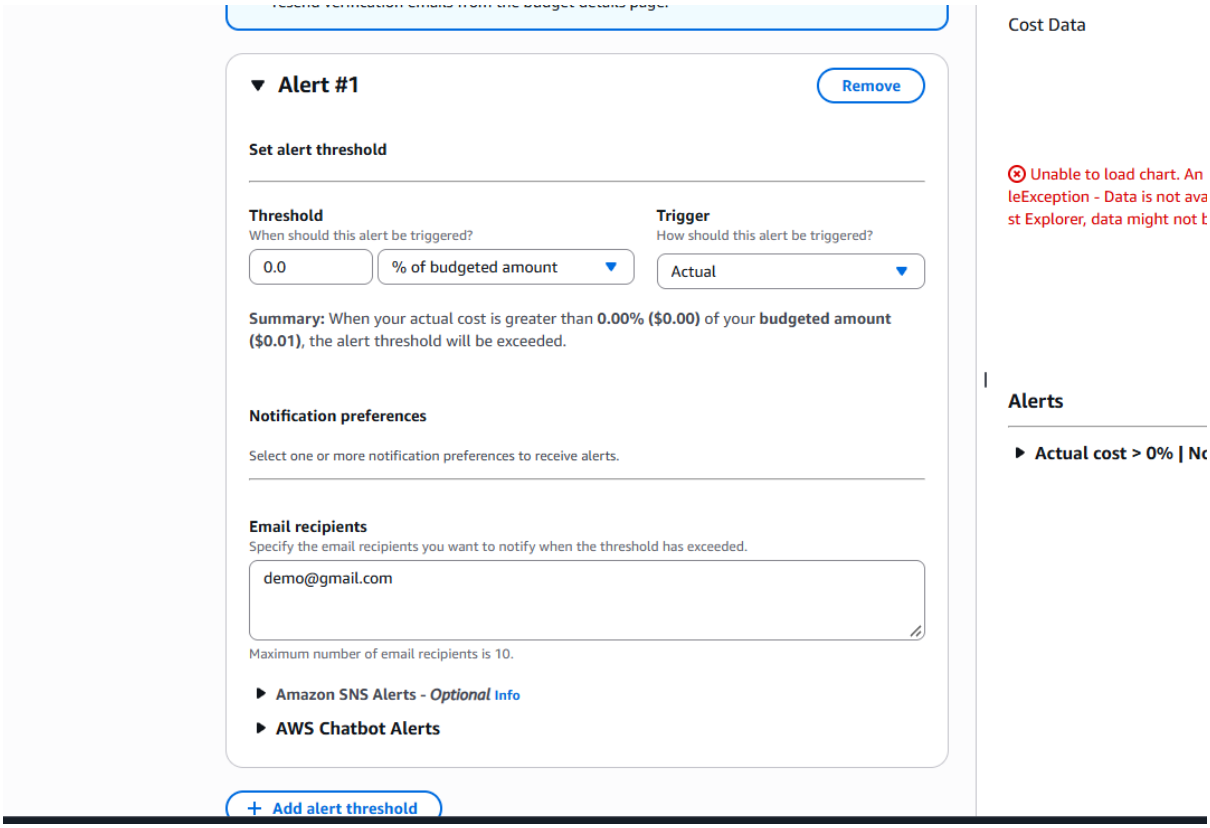

Step 9: Navigate to Budgets and select Create Budget . Select Customize (advanced) → Cost Budget.

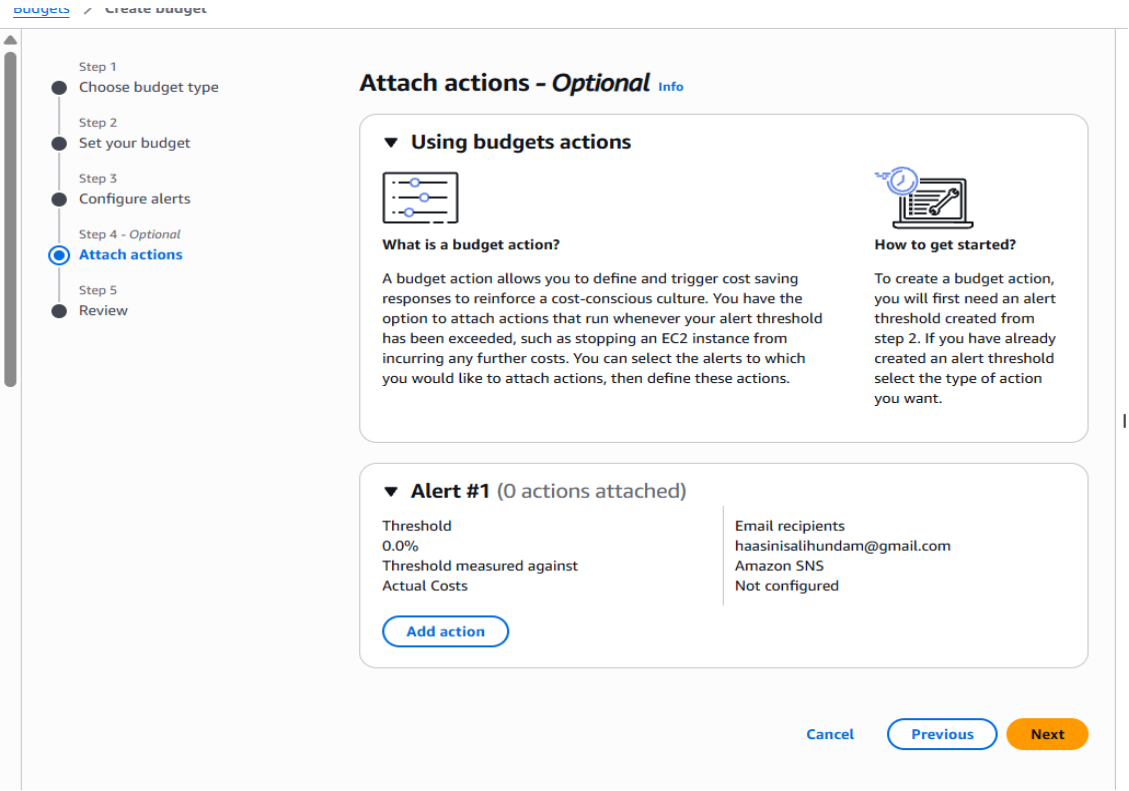

Step 10: Enter the budget name as ZERO_BUDGET and Set the monthly budget amount to $0.01.

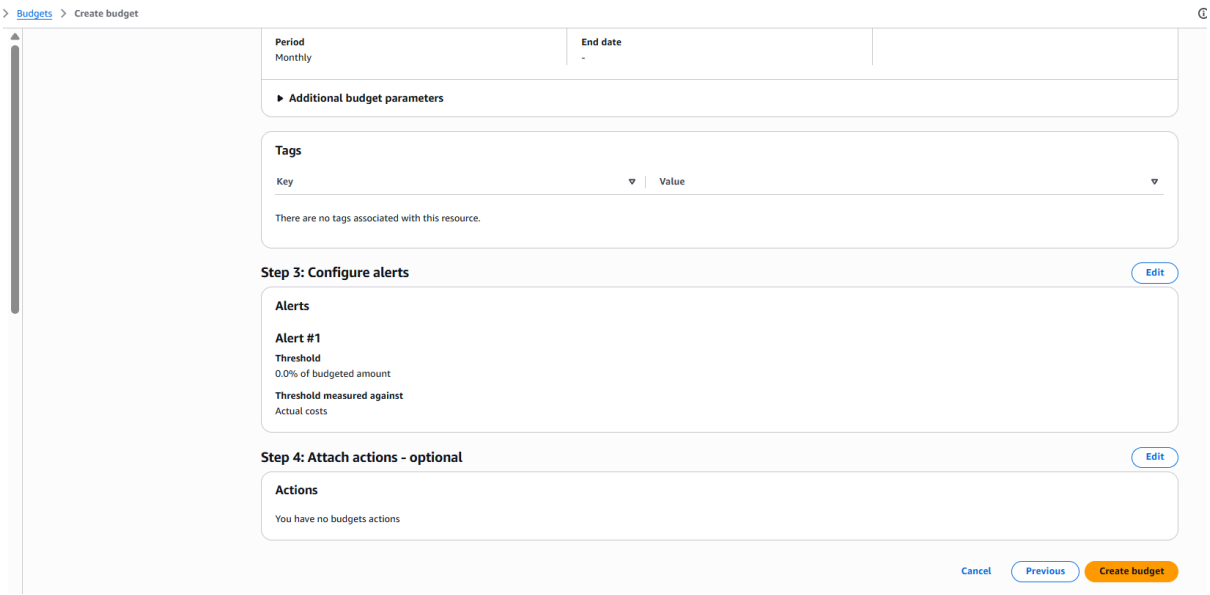

Step 11: Configure the alert threshold and enter the notification email address.

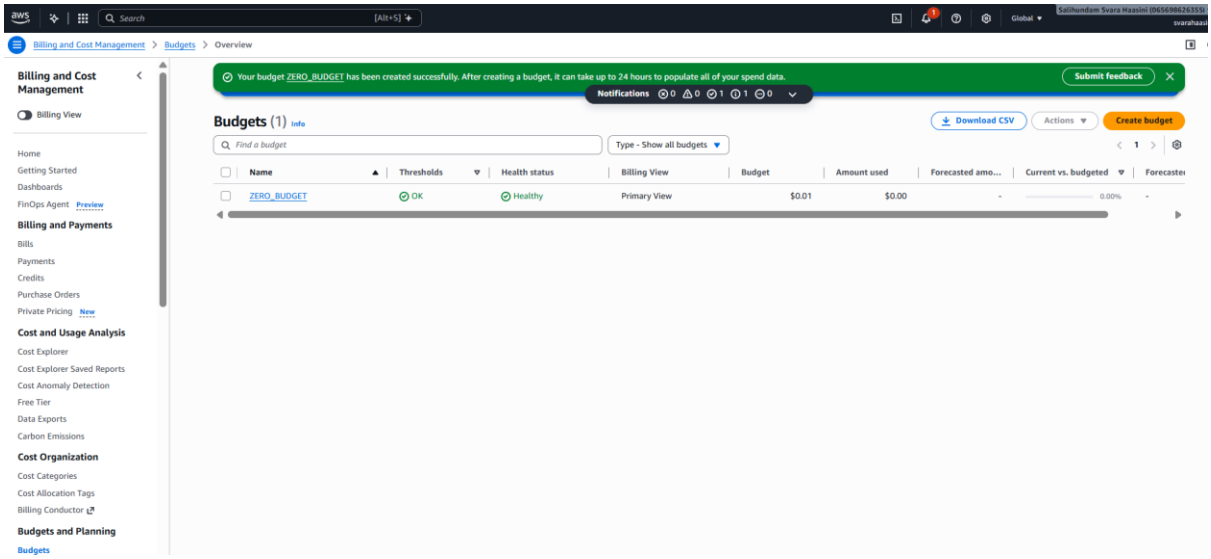

Step 12: Review the optional budget actions.

Step 13: Click Create Budget.

Step 14: Verify the successful creation of the AWS budget.

Result

An AWS IAM user was created, and a monthly cost budget with an email notification alert was configured successfully.
